📄 PROFESSIONAL SUMMARY

ML Engineer and Data Scientist with hands-on experience building end-to-end MLOps pipelines, NLP systems, and REST APIs. Skilled in Python, Scikit-learn, Flask, FastAPI, Docker, DVC, and AWS S3. Seeking an entry-level ML Engineer or Data Scientist role.

📁 WORK EXPERIENCE

Data Science Training, QSpiders (Software Training Institute) 2025 – 2026 | Ahmedabad,Gujarat
- Completed hands-on training in Python, SQL, data science, and ML concepts in a structured environment.
- Built mini-projects applying classification and regression techniques under mentor guidance.

🎓 EDUCATION

Master of Computer Applications, 2025 – Present | Ahmedabad,Gujarat
Gujarat Technological University
Bachelor of Computer Applications, 2022 – 2025 | Veraval
Bhakta Kavi Narsinh Mehta University

📁 PROJECTS

Deep Shield Mail — AI-Powered Email Spam Detection 🔗
Python, NLP, Flask, AWS S3, PostgreSQL, Docker, DVC
- Built NLP pipeline for email spam classification achieving ~97% accuracy using XGBoost (also tested Naive Bayes, Logistic Regression, Random Forest, SVC).
- Engineered modular MLOps pipeline with DVC, reducing manual re-training effort by ~40%.
- Deployed Flask REST API with AWS S3 model storage & PostgreSQL; containerised with Docker.

InsureAI — Insurance Risk Prediction Pipeline 🔗
Python, FastAPI, Scikit-learn, PostgreSQL, AWS S3, Docker, DVC
- Built production-ready MLOps pipeline processing 10,000+ records with automated ingestion, validation, transformation & training stages.
- Served real-time predictions via FastAPI with average inference latency under 200ms.
- Integrated AWS S3, PostgreSQL & DVC for full version control; containerised with Docker.

🧠 SKILLS SUMMARY

- **Programming Languages** — Python, SQL, JavaScript
- **ML & Data:** — Scikit-learn, Pandas, NumPy, NLP, Feature Engineering, Model Evaluation
- **MLOps :** — Docker, DVC, Flask, FastAPI, AWS S3, End-to-end ML Pipelines, REST APIs
- **Visualisation :** — Matplotlib, Seaborn
- **Web & DB :** — HTML, CSS, Tailwind, JavaScript, MySQL, PostgreSQL

🏆 CERTIFICATIONS & ACCOMPLISHMENTS

Machine Learning Basics (AWS Foundations), **Data Science & Analytics** 🔗 (HP Foundation), **Data Analysis with Python** 🔗 (IBM), **Data Visualisation** 🔗 (Forage), **SQL and Relational Databases** 🔗 (IBM), **AI for Beginners** 🔗 (HP Foundation), **Effective Leadership** 🔗 (HP Foundation), **Data Science Job Simulation** 🔗 (Forage)
