PROFESSIONAL SUMMARY

A Motivated Data Science and Machine Learning enthusiast with hands-on experience in building predictive models, data pipelines, and deploying ML solutions. Proficient in Python, scikit-learn, and MLOps tools. Eager to apply analytical and engineering skills to solve real-world problems in a data-driven environment.

EDUCATION

Master of Computer Applications, 2025 – Present | Ahmedabad, Gujarat
Gujarat Technological University

Bachelor of Computer Applications, 2022 – 2025 | Veraval
Bhakta Kavi Narsinh Mehta University

WORK EXPERIENCE / TRAINING

Data Science Trainee, QSpiders Software Training Institute 2025 – 2026 | Ahmedabad, Gujarat

- Completed intensive training in Python, SQL, Data Science, and Machine Learning in a structured industry-oriented environment
- Gained practical exposure to **end-to-end ML workflows** including data preprocessing, model building, and evaluation

PROJECTS

Deep Shield Mail — AI-Powered Email Spam Detection 🔗

Python · Naive Bayes · TF-IDF · NLP · Flask · MLflow · DVC · Docker · AWS EC2/ECR/S3 · Nginx · CI/CD

- Achieved **97.8% accuracy and 97.7% F1-score** on spam/phishing detection; deployed live at deepshieldmail.duckdns.org 🔗
- Designed a **6-stage MLOps pipeline** — Data Ingestion → Validation → Transformation → Training → Evaluation → Model Pusher — with DVC versioning and S3 remote storage
- Engineered a **30,012-dimensional feature matrix** (TF-IDF 30k + 12 hand-crafted NLP meta-features); Selected Naive Bayes over 6 algorithms via MLflow experiment tracking
- Containerized the application with **Docker**, pushed it to **AWS ECR**, and deployed it on **AWS EC2**
- Integrated **Gmail OAuth2** for real-time inbox scanning, threat history dashboard and manual analysis API

SKILLS SUMMARY

Programming Languages : — Python, SQL, JavaScript

ML and Data : — Scikit-learn, Pandas, NumPy, NLP, Feature Engineering, Model Evaluation

MLOps : — Docker, DVC, Flask, FastAPI, AWS S3, End-to-end ML Pipelines, REST APIs

Visualisation : — Matplotlib, Seaborn

Web and DB : — HTML, CSS, Tailwind, JavaScript, MySQL, PostgreSQL

CERTIFICATIONS & ACCOMPLISHMENTS

Machine Learning Basics — AWS Foundations • **Data Science & Analytics** 🔗 — HP Foundation •

Data Analysis with Python 🔗 — IBM • **Data Visualisation** 🔗 — Forage •

SQL and Relational Databases 🔗 — IBM • **AI for Beginners** 🔗 — HP Foundation •

Effective Leadership 🔗 — HP Foundation • **Data Science Job Simulation** 🔗 — Forage
